JOACHIM ERWIN

OBERBÜRGERMEISTER DER LANDESHAUPTSTADT DÜSSELDORF
MAYOR OF THE STATE CAPITAL DÜSSELDORF

„China goes DUS!“ ist die erfolgreiche Initiative, die Stadt Düsseldorf zum Brückenkopf für die chinesische Wirtschaft in Europa auszubauen. Die CHINA SOURCING Messe findet nun schon zum zweiten Mal als besonders erfolgreiches Beispiel vielfältiger Events und Veranstaltungen statt.

Im letzten Jahr war es mir eine Freude, die CHINA SOURCING 2005 mit rund 200 Ausstellern aus China zu eröffnen. Drei Tage lang trafen sich rund 3.000 europäische und chinesische Unternehmer. In diesem Jahr freuen wir uns über einen Zuwachs, der sinnbildlich für die rasche Entwicklung der chinesischen Wirtschaft stehen kann: Auf der im Vergleich zum Vorjahr doppelten Ausstellungsfläche werden in Düsseldorf rund 350 Aussteller ihre Produkte, Waren und Services vorstellen! Schon im letzten Jahr nutzten die vielen Besucher die einmalige Gelegenheit, sich über das Warenspektrum chinesischer Hersteller aus den Bereichen Haushaltsgeräte, Baumarkt- und Heimwerkerbedarf sowie Sanitärzubehör und Autoteile zu informieren. In diesem Jahr ist das Angebot noch merklich erweitert, so wird es neben der CHINA SOURCING eine weitere China Messe für den Handel, die Canton TradEx Europe sowie eine durch das chinesische Handelsministerium initiierte Kooperationsbörse für europäisch-chinesische Kontakte in der Automobilindustrie geben.

Düsseldorf ist als Standort für diese Messe gut gewählt. Unsere Stadt liegt im Herzen der dynamischen und erfolgreichen Wirtschaftsregion Rhein-Ruhr. Von hier aus werden nicht nur gute Geschäfte in ganz Europa gemacht, sondern mit der Welt. Der Flughafen Düsseldorf bedient weltweit

über 170 Destinationen und die Messe Düsseldorf ist mit mehr als 20 weltweit führenden Leitmesse jedes Jahr eine optimale Plattform für das internationale Geschäft. Nicht zuletzt die internationale Atmosphäre der Landeshauptstadt hat nach dem Motto „Business meets Lifestyle“ bereits jetzt mehr als 5.000 internationale Unternehmen angelockt. Mehr und mehr chinesische Unternehmen nutzen jetzt diese Standortvorteile und machen unsere Stadt zu einem Zentrum des europäisch-chinesischen Handels.

Besonders freue ich mich, dass in diesem Jahr zur Durchführung der China Trade Events neben der China Chamber of Commerce for Import and Export of Machinery and Electronic Products ein weiterer wichtiger Partner auf chinesischer Seite gefunden wurde. Im Juli dieses Jahres habe ich mit meinem Amtskollegen Zhang Guangning, dem Oberbürgermeister der Stadt Guangzhou in der Provinz Guangdong, ein Kooperationsabkommen für den wirtschaftlichen Austausch zwischen unseren beiden Städten geschlossen. Guangzhou ist einer der führenden Messestandorte Chinas und Heimat der weltberühmten Kantonmesse. Daher ist es mir eine besondere Freude, dass das Department of Foreign Trade and Economic Cooperation of Guangdong Province in diesem Jahr gemeinsam mit Reed Exhibitions die Messe Canton TradEx Europe veranstaltet.

Weltweit ist China einer der führenden Wirtschaftspartner geworden, und die Möglichkeiten, gerade für den deutschen und europäischen Mittelstand, sind noch nicht erschöpft. Ich freue mich, dass die China Trade Events 2006 in Düsseldorf dazu beitragen, Firmen aus Europa und China zusammenzubringen, um über gemeinsames Business zu sprechen und hoffentlich viele Grundsteine für erfolgreiche Geschäftsbeziehungen zu legen. Suchen Sie dann mit Ihrem neuen chinesischen bzw. europäischen Partner einen Standort für Ihr neues Business, sollte Düsseldorf die erste Wahl sein. Wir werden Sie mit einem eigens eingerichteten China-Kompetenzzentrum gerne unterstützen, von hier aus weltweit erfolgreich zu sein.

GRUSSWORT
WELCOME

5

'China goes DUS!' is the name of the successful initiative aimed at making the city of Düsseldorf a bridgehead for Chinese business. The trade fair CHINA SOURCING is now taking place for the second time already, and thus a particularly successful example for a large variety of events and functions.

Last year I had the pleasure of opening CHINA SOURCING 2005 which had attracted approximately 200 exhibitors from China. For three days, it was the meeting place for approximately 3,000 European and Chinese entrepreneurs. This year, we record a gratifying increase which could be taken as a symbol for the rapid development of the Chinese economy: on twice the exhibition floor space, compared to last year, approximately 350 exhibitors will present their products, goods and services in Düsseldorf! Last year already, the large number of visitors took advantage of the unique opportunity to learn about the wide range of goods produced by Chinese manufacturers in the areas of home appliances, hardware as well as bathroom fittings and autoparts. This year, the range on offer has been extended considerably. In addition to CHINA SOURCING there will be a second fair on trade with China, Canton TradEx Europe, and also a business match-making event for European-Chinese contacts in the automotive industry sponsored by the Ministry of Commerce of P. R. China.

Düsseldorf is a good choice of location for this trade fair. Our city is right at the heart of the dynamic and successful Rhine-Ruhr economic region. From here, profitable business is done not only with all of Europe but with the whole world. From Düsseldorf Airport, more than 170 destinations throughout the world are served, and with more than 20 leading world fairs every year, the city's trade fair facility, the Messe Düsseldorf, is an optimal platform for international business. Last but not least the international flair of the state capital already attracted more than 5,000 international companies, true to its motto "Business meets Lifestyle". More and more Chinese companies have come to benefit from the advantages offered by this location and now make our city a centre of the trade between Europe and China.

I am particularly happy that, next to the China Chamber of Commerce for Import and Export of Machinery and Electronic Products, a second important partner has been enlisted for the organisation of the China Trade Events this year. Last July, I concluded a cooperation agreement with my counterpart Zhang Guangning, the Lord of the city of Guangzhou in Guangdong province, for economic exchange between our two cities. Guangzhou is one of the leading trade fair locations in China and home to the world-famous Canton Trade Fair. I am therefore particularly pleased that this year the Department of Foreign Trade and Economic Cooperation of Guangdong Province is organising Canton TradEx Europe together with Reed Exhibitions.

China has become one of the leading business partners worldwide, offering still more opportunities particularly to German and European medium-sized companies. I am happy that China Trade Events 2006 in Düsseldorf will contribute to bringing together companies from Europe and from China to talk about doing business together and hopefully to lay the foundations of successful business relations. If you and your new Chinese or European partner are looking for a location for your new business, Düsseldorf should be your first choice. With our China Competence Centre which was established just for this purpose, we will be very happy to assist you in doing successful business worldwide from Düsseldorf.

YAO WENPING

VICE-PRÄSIDENT CCCME
VICE-PRESIDENT OF CCCME

Im Namen von CCCME freue ich mich sehr, Sie alle als Besucher der CHINA SOURCING in Düsseldorf begrüßen zu dürfen, die nun zum zweiten Mal von CCCME und Reed Exhibitions Deutschland GmbH gemeinsam veranstaltet wird.

Etwa 220 Aussteller aus verschiedenen Regionen Chinas werden an der Messe teilnehmen, darunter viele namhafte chinesische Unternehmen wie Minfeng, Homa, Guangdong Victory, Leiyon, Fujia, Superhuman, Dongfeng Motor, FAW, Nanjing Yuejin und Jiangling Motor. Sie werden über 12.000 verschiedene Produkte ausstellen, dazu zählen elektrische Haushaltsgeräte, Baumarkt- und Heimwerkerbedarf, Autozubehör, Sanitärbedarf und Beleuchtung.

In den vergangenen Jahren hat sich der Außenhandel Chinas enorm entwickelt. Nach den Statistiken des chinesischen Zolls betrug der Exportwert chinesischer Maschinen und Elektronikprodukte im Jahr 2005 über 426,8 Milliarden USD bei einem Anstieg von 32 %. Der Importwert der oben genannten Produkte belief sich auf 350,4 Milliarden USD bei einer Wachstumsrate von 16 %. Das erstaunliche Wachstum des Außenhandels zeigt, dass China sich auf den Weltmarkt stützt und der Weltmarkt die chinesischen Produkte braucht.

Die Aussteller der CHINA SOURCING sind allesamt zuverlässige Hersteller. Die meisten ihrer Produkte werden auf dem Weltmarkt vertrieben und sind bei internationalen Einkäufern beliebt. Wir haben die Aussteller sorgfältig ausgewählt und einige im In- und Ausland wohl bekannte Markenprodukte auf die Messe geholt. Diese Ausstellung dient den chinesischen Herstellern als Plattform für den Eintritt in den europä-

ischen Markt und den internationalen Einkäufern als Schau-
fenster, um chinesische Produkte näher kennen zu lernen.

Ich denke, dass der Erfolg von CHINA SOURCING das Wachstum des Handels zwischen China, den EU-Ländern und der übrigen Welt fördern wird.

Ich wünsche CHINA SOURCING viel Erfolg!

On behalf of CCCME, I am very honoured to welcome you all to visit the second edition of CHINA SOURCING in Düsseldorf, which is co-organized by CCCME and Reed Exhibitions Deutschland GmbH.

Around 220 exhibitors take part in this show from different parts of China, including many reputable Chinese companies such as, Minfeng, Homa, Guangdong Victory, Leiyon, Fujia, Superhuman, Dongfeng Motor, FAW, Nanjing Yuejin and Jiangling Motor. They brought over 12000 types of exhibits, including household electric appliances, auto parts, hardware, bath room fittings and lighting.

In recent years, China's foreign trade has been developing rapidly. According to the statistics of China Custom, the export value of Chinese machinery and electronic products in 2005 was over 426.8 billion U.S. dollars, increasing by 32%, while the import value of the above products was 350.4 billion, with a growth rate of 16%. The remarkable growth of the foreign trade value shows that China relies on the world market and the world market also needs Chinese products.

The exhibitors of CHINA SOURCING are reliable manufacturers. Most of their products are sold to the world market and are popular among the international buyers. We have meticulously selected the exhibitors and brought to the show some brand name products which are famous at home as well as abroad. This show will be a platform for Chinese manufacturers to enter the European market, and an open window for the international buyers to have better understanding of Chinese products.

I believe that the success of CHINA SOURCING will promote trade between China, EU countries and the rest of the world.

I wish CHINA SOURCING a consummate success!

“Canton TradEx Europe” wird gemeinsam von dem „Department of Foreign Trade and Economic Cooperation of Guangdong Province“ (GDDOFTEC) in Zusammenarbeit mit Reed Exhibitions Deutschland GmbH organisiert. Im Namen von GDDOFTEC freue ich mich sehr, unsere verehrten Gäste auf dieser Messe begrüßen zu dürfen.

Die Zielsetzung von GDDOFTEC ist es, den Austausch und die Zusammenarbeit zwischen Unternehmen aus Guangdong sowie aus anderen Ländern und Regionen zu fördern. Reed Exhibitions ist ein international renommierter und erfahrener Veranstalter erfolgreicher Messen. Umso mehr sind wir überzeugt, mit der „Canton TradEx Europe“ eine wichtige Plattform für Unternehmen aus Guangdong und Europa für Ausstellung, Verhandlungen und Kommunikation zu schaffen, mit dem Ziel, die Zusammenarbeit und Entwicklung auf beiden Seiten zu fördern.

Die Kantonmesse ist die drittgrößte Messe der Welt. Sie ist ein Besuchermagnet für jährlich zehntausende von Einkäufern aus der ganzen Welt. Doch obwohl internationale Einkäufer die Kantonmesse kennen, wissen sie über die Provinz Guangdong selbst und die dorthier stammenden Produkte meist nur wenig. Aus diesem Grund haben wir gemeinsam mit Reed Exhibitions Deutschland GmbH die Messe „Canton TradEx Europe“ ins Leben gerufen, die sich auf die bekanntesten Produktbereiche aus Guangdong spezialisiert. So erhalten Einkäufer aus Deutschland und Europa Zugang zu den besten Produkten aus Guangdong, ohne weite Reisen unternehmen zu müssen. “Canton TradEx Europe” wurde von den Unternehmen aus der Provinz Guangdong bereits in diesem ersten Veranstaltungsjahr sehr gut angenommen. Rund 130 Aussteller aus den Bereichen Badezimmer-Produkte, Küchengeräte und -accessoires sowie Geschirr, Keramik und Baumaterialien präsentieren eine große Bandbreite ihrer Produkte. Vertreten sind sowohl große Marken-Unternehmen als auch aufstrebende kleine und mittlere Hersteller. Wir hoffen, die Stärken der „Produkte aus Guangdong“ an die internationalen Einkäufern vermitteln zu können und wünschen Einkäufern und Ausstellern eine erfolgreiche Veranstaltung!

“Canton TradEx Europe”, is co-organised by the Department of Foreign Trade and Economic Cooperation of Guangdong Province and Reed Exhibitions Deutschland GmbH. On behalf of GDDOFTEC, I am very honored to welcome all the distinguished guests to visit our show.

ZHU ZE NAN

DEPUTY DIRECTOR GENERAL, GDDOFTEC
DEPUTY DIRECTOR GENERAL OF GDDOFTEC

GDDOFTEC is continuously promoting the exchange and cooperation between the enterprises of Guangdong Province and those from other countries and regions. Our partner, Reed Exhibitions is a renowned international exhibition company, who has abundant experience in holding successful shows. We believe the cooperation between our department and Reed Exhibitions will provide a platform for both Guangdong and European companies to display, negotiate and communicate, which will certainly expedite their cooperation and development.

“Canton Fair”, the world’s third largest exhibition, attracts tens of thousands of industry buyers every year from all over the world. However, the international buyers know only about “Canton Fair”, but are impercipient of Guangdong Province and its products. Thus our intention of establishing “Canton Tradex Europe”, which covers kitchenware and building materials, is to provide access for German and European buyers to the best products from Guangdong without going far from their homes.

“Canton-TradEx Europe” has a good response in our province. Around 130 exhibitors from sanitary ware, kitchenware, building material and ceramics sector will showcase their best product series on our exhibition. Among them, are both brand name large enterprises and vigorous medium or small sized manufacturers. We hope that international buyers will see the real strength of “Guangdong’s Products” and hope that both sellers and buyers will be satisfied with our show!

I’d like to wish “Canton TradEx Europe” a complete success!

HANS-JOACHIM ERBEL

GESCHÄFTSFÜHRER REED EXHIBITIONS DEUTSCHLAND GMBH
MANAGING DIRECTOR OF REED EXHIBITIONS DEUTSCHLAND GMBH

BRITTA WIRTZ

DIRECTOR REED EXHIBITIONS DEUTSCHLAND GMBH
DIRECTOR OF REED EXHIBITIONS DEUTSCHLAND GMBH

Veränderungen im Tagestakt, Großprojekte im Monatszyklus und ein jährliches Wirtschaftswachstum in der Größenordnung einer Dekade: China geht seinen Jahrhundertweg in einem Tempo, das atemberaubend ist. Fast scheint es, als habe der chinesische Kalender derzeit mehr Tage als sechs Jahre in Europa zählen. Das belegen allein die großen Infrastruktur-Projekte, die innerhalb weniger Monate eingeweiht wurden: der Drei-Schluchten-Staudamm im Mai und zwei Monate darauf die Tibet-Bahn, die als Meisterleistung chinesischer Ingenieure nach nur fünfjähriger Bauzeit über eine Länge von 965 Kilometern in mehr als 4.000 Metern Höhe durch das Hochgebirge verläuft. In fast Schwindel erregender Höhe bewegt sich auch das anhaltende Wirtschaftswachstum, das allein im ersten Halbjahr des laufenden Jahres mit fast elf Prozent ein weiteres Zehn-Jahres-Hoch erreicht.

Das Reich der Mitte, mitten in Europa: Mit der letztjährigen Premiere der CHINA SOURCING, die als erste chinesische Leistungsschau in Deutschland stattfand, konnten wir in enger Zusammenarbeit mit unserem Partner, der CCCME, eine strategisch wichtige Handelsbrücke über die Kontinente hinweg schlagen, die von zahlreichen Groß- und Einzelhändlern sowie Importeuren und Vertriebspezialisten genutzt wurde. Es freut uns sehr, dass aus dieser Brücke bereits im zweiten Jahr eine deutlich breitere Verbindung geworden ist, die durch die Erweiterung unserer Zusammenarbeit mit der Außenwirtschaftsabteilung der Provinz Guangdong und dem chinesischen Handelsministerium zu einer Trasse für den freien Warenverkehr wird. Mit der CHINA SOURCING, der parallel stattfindenden Canton Trade Europe und der Präsentation CHINA AUTOPARTS 2006 bieten wir unter der Dachmarke „China Trade Events“ dem europäischen Handel einen konzentrierten Einblick in das Leistungsvermögen chinesischer Anbieter.

Delegationen aus mehr als 20 Städten und Provinzen Chinas sind nach Düsseldorf gereist. Auch in dieser Hinsicht leisten die China Trade Events einen konzentrierten Beitrag zu der 2004 vom Oberbürgermeister der Landeshauptstadt gestarteten Initiative „China goes DUS“. Für das hohe Maß an Unterstützung gilt an dieser Stelle unser Dank der Landeshauptstadt Düsseldorf, der Wirtschaftsförderung der Landeshauptstadt sowie der Messe Düsseldorf.

Canton TradEy
Europe

GRUSSWORT
WELCOME

9

Noch ist die Brücke, die wir mit den China Trade Events schlagen, keine Hochgeschwindigkeits-Trasse. Doch mit jedem Fachbesucher, der sie zu neuen Direkt-Kontakten nutzt, leisten wir einen nachhaltigen Beitrag für erfolgreiche Geschäftsbeziehungen. In diesem Sinne wünschen wir allen Ausstellern und Besuchern drei erfolgreiche Messetage in Düsseldorf.

Changes on a daily basis, major projects announced every month, and annual economic growth matching that of a decade in most other countries: China has started the new millennium at breathtaking speed. It is almost as though the Chinese economy can achieve in one year what it takes six years to accomplish in Europe. This is apparent just from the major infrastructure projects which have been officially opened in the last few months: the Three Gorges Dam in May and, two months later, the Tibet Railway, a brilliant achievement for the Chinese engineers who succeeded in building a 965 kilometre track through the mountains at over 4000 metres above sea level in just five years. The ongoing economic growth is surging ahead and reached almost eleven percent in the first half of the current year - a further ten-year record.

The Middle Kingdom in the middle of Europe: last year when we launched the CHINA SOURCING, the first Chinese trade fair to be held in Germany, we succeeded, in close collaboration with our partner, the CCCME, in building a strategically important trade bridge spanning the continents which was used by numerous wholesalers and retailers, importers and trade specialists. We are delighted that in this, the second year, the bridge has broadened significantly into a major link for the free movement of goods thanks to the expansion of our collaboration with the Department of Foreign Trade and Economic Co-operation of Guangdong Province and the Chinese Ministry of Trade. Our „China Trade Events“ - the CHINA SOURCING, its parallel event the Canton TradEx Europe, and the CHINA AUTOPARTS 2006 presentation - offer European traders a concentrated insight into just what the Chinese manufacturers are capable of.

Delegations from more than 20 Chinese cities and provinces came to Düsseldorf last year. The China Trade Events are therefore making an important contribution to the „China goes DUS“ initiative launched by the city's Mayor in 2004. At this point we would like to thank the City of Düsseldorf, the Düsseldorf Office of Economic Development and Messe Düsseldorf for their strong support.

At the moment, our China Trade Events bridge is not yet a high-speed link. Yet each time a trade visitor uses it to make direct contacts, this represents an important contribution to successful business relations in the future. We would therefore like to wish all exhibitors and visitors every success during the three days of the events.

CHINA-HANDEL WEITER AUF WACHSTUMSKURS CHINA BUSINESS CONTINUES TO GROW

„EINFUHREN MACHEN DEUTSCHLAND WETTBEWERBSFÄHIG“ „IMPORTS SECURE GERMANY'S COMPETITIVE POSITION“

Interview with **JENS NAGEL** Federation of German Wholesale and Foreign Trade (BGA), Berlin

Der Außenhandel zwischen Deutschland und China wächst kräftig. „Davon profitieren nicht nur die deutschen Importeure durch günstige Produkte, sondern auch die deutsche Volkswirtschaft als Ganzes“, sagt Jens Nagel, Geschäftsführer des Bundesverbandes des Deutschen Groß- und Außenhandels e.V., im Interview.

Herr Nagel, der Handel zwischen Deutschland und China nimmt rapide zu. Wird dies so bleiben?

Deutschland und China haben sich zum Ziel gesetzt, das bilaterale Handelsvolumen in den kommenden Jahren zu verdoppeln. Der Beitritt Chinas zur Welthandelsorganisation (WTO) war diesbezüglich ein Quantensprung. Chinas Markttöffnung Ende 2001 hat den Handel zwischen den beiden Ländern in neue Dimensionen katapultiert. Wir rechnen fest damit, dass sich die spektakulären Wachstumsraten fortsetzen. Deutschland exportierte im Jahr 2005 Waren im Wert von 21,3 Mrd USD in die Volksrepublik, im Gegenzug erreichten die Importe ein Volumen in Höhe von insgesamt 39,9 Mrd USD.

Aus den Zahlen ergibt sich ein Rekordnegativsaldo im China-Handel in Höhe von 18,6 Mrd USD. Sind die vielen Importe aus China ein Problem für die deutsche Wirtschaft?

China ist eines der wenigen Länder gegenüber dem Deutschland ein Handelsdefizit aufweist. Einige Sektoren haben aufgrund der niedrigen Faktorkosten in China keine Zukunft mehr in Westeuropa, so zum Beispiel die Textilindustrie, die nach Asien beziehungsweise Mittel- und Osteuropa abgewandert ist. Diesen Strukturwandel gilt es zu akzeptieren und positiv zu gestalten. Anstelle

Foreign trade between Germany and China is showing strong growth. „This is not only profitable for German importers of low-price products but also for the German economy as a whole“, says Jens Nagel, Executive Officer of the Federation of German Wholesale and Foreign Trade (Bundesverband des Deutschen Groß- und Außenhandels e.V.) in this interview.

Mr. Nagel, trade between Germany and China is growing rapidly. Will this trend continue?

Germany and China have set themselves the target to double the volume of bilateral trade in the next few years. In this context, China's entering the World Trade Organisation (WTO) represents a quantum leap. The opening of the markets by the Chinese government at the end of 2001 has propelled trade between the two countries into new dimensions. We are certain that the spectacular growth rates will continue. In 2005, Germany exported goods at a total value of 21.3 billion USD to the People's Republic, imports in turn reached a volume of 39.9 billion USD.

These figures show a record negative balance of 18.6 billion USD. Is the high volume of imports from China a problem for the German economy?

China is one of the few countries where Germany shows a trade deficit. This situation is a result of the international division of labour. Due to the low factor costs in China, some sectors no longer have a future in Western Europe, the textile industry which has migrated to Asia or Central and Eastern Europe being a case in point. This structural change is something we must accept and turn to our

protektionistischer Maßnahmen muss die Politik zukunfts-fähige Branchen deregulieren und Anreize für Innovationen schaffen. Wenn dies geschieht, ist das Handelsdefizit kein Anlass zu Sorge, weil so neue Exportbranchen entstehen. Im Übrigen verzeichnet Deutschland insgesamt Außenhandelsüberschüsse und ist in mehreren Bereichen starke Ausfuhrnation.

Welche Vorteile resultieren aus dem hohen Einfuhrvolumen aus China?

Ein hohes Importvolumen aus China wirkt arbeitsplatz-sichernd. Das wird in Deutschland häufig falsch interpretiert. Nehmen Sie das Beispiel Hamburg. Der Hafen ist Jobmotor für die Hansestadt. Arbeitsplätze, die ohne den Import nicht möglich wären. Preisgünstig importierte Vorprodukte aus der Volksrepublik sichern zudem die Wettbewerbsfähigkeit unserer Exporte. Ohne Kfz-Teile aus Osteuropa und Asien wären unsere Kraftfahrzeuge in der Welt nicht mehr wettbewerbsfähig. Nicht zuletzt trägt der Importhandel mit China dazu bei, dass die Preise für Konsumgüter stabil bleiben. Innerhalb der Europäischen Union ist in Deutschland das Niveau am niedrigsten. Das liegt unter anderem daran, dass die Bundesrepublik hinter den USA zweitgrößtes Importland ist und unter den Betriebsformen des Handels rege Konkurrenz herrscht.

In welchen Branchen lohnt sich Beschaffung in China besonders?

Klassiker sind sicherlich Konsumgüter wie zum Beispiel Haushaltsgeräte. Autoteile und chemische Erzeugnisse sind ebenfalls sehr interessant. Vermehrt in den Fokus rücken auch Hightech-Produkte. Viele Unternehmen im Reich der Mitte betreiben inzwischen selbst hochwertige Forschung und Entwicklung.

Indem sie unsere Produkte kopieren?

Man kann keinem Land verbieten, Entwicklungsschritte nach-zuholen. Wenn wir nicht die englischen Dampfmaschinen nachgebaut hätten, wären wir noch lange im Mittelalter geblieben. Für die deutsche Wirtschaft geht es vielmehr darum, immer einen Entwicklungsschritt voraus zu sein. Zugegeben, Produktpiraterie ist dann schlimm, wenn Schlüsseltechnologien geklaut werden, die das ganze Kapital einer Firma sind. Das darf nicht passieren. In diesem Fall sind die Chinesen wirklich in der Pflicht, das zu unterbinden.

advantage: rather than resorting to protectionist measures. Governments must deregulate those industries with a future and provide incentives for innovation. If this happens the trade deficit is no cause for concern, as it helps new export industries to develop. What is more, Germany shows an overall surplus in foreign trade and is a strong export nation in a number of fields.

What are the advantages resulting from the high volume of imports from China?

A high volume of imports from China helps to secure jobs. This is frequently misinterpreted in Germany. Take Hamburg, for example. The port is a job motor for the city. Jobs that would not exist without imports. Intermediate products imported at low prices from the People's Republic also secure the competitiveness of our own exports. Without automotive parts from Eastern Europe and Asia our cars could not compete globally any more. And last but not least, the import trade with China contributes to keeping the prices of consumer goods stable. Within the European Union Germany has the lowest prices. That is partly due to the fact that the Federal Republic is the second biggest importing country after the US and that there is a lively competition between the different operative forms of trade.

Which are the industries where procurement from China is particularly worthwhile?

Classic cases are no doubt consumer goods such as, for instance, household appliances. Automotive parts and chemical products are also very interesting propositions. High-tech products are increasingly coming into focus as well. Many companies in China are meanwhile pursuing high-quality research and development activities.

By copying our products?

You can not forbid any country to catch up on developments. If we had not imitated English steam engines we would have continued in the Middle Ages for a long time. For German industry the point is rather to always be one step ahead in development. I grant you, product piracy is bad if it concerns key technologies which make up a company's entire capital. This must not be allowed to happen. In such a case the Chinese really are duty bound to put an end to it.

HANDELSVERTRETER HELFEN BEIM EINTRITT IN DEN DEUTSCHEN MARKT

COMMERCIAL AGENTS HELP WITH THE ENTRY INTO THE GERMAN MARKET

PARTNER FÜR CHINESISCHE UNTERNEHMEN PARTNERS FOR CHINESE COMPANIES

Author **CLAUDIA MISCHON** National Federation of German Commercial Agencies and Distribution (CDH), Berlin

Deutschland ist für ausländische Unternehmen ein attraktives Exportland mit hoher Kaufkraft aber auch mit schwierigen Märkten. Um die Markteintrittsbarrieren zu überwinden, brauchen vor allem ausländische Firmen, die mit den Parametern des deutschen Marktes nicht oder nur unzureichend vertraut sind, einen kompetenten Vertriebspartner. Die Zusammenarbeit mit Handelsvermittlungen ist eine erfolgversprechende Alternative.

Über 40 Prozent der deutschen Handelsvertretungen arbeiten mittlerweile für mindestens eine ausländische Firma. Handelsvertretungen sind selbständige Unternehmen, die im Business-to-Business-Bereich tätig sind. Das heißt, sie vermitteln Waren zwischen Unternehmen auf allen Wirtschaftsstufen, so zwischen Industrie und Handel und zwischen Industrie und Unternehmen im Zulieferbereich. Es gibt sie in nahezu allen Branchen.

Ein wesentlicher Vorteil für die vertretenen Unternehmen ist die umsatzabhängige Entlohnung. Das bedeutet, dass fixe Vertriebskosten nicht entstehen, sondern nur dann Provision gezahlt werden muss, wenn auch Umsatz gemacht wird. Die Handelsvertretungen erfüllen eine Vielzahl von Funktionen. Neben die Kerntätigkeit, die Vermittlung von Waren, ist ein Paket an Dienstleistungen rund um den Vertrieb getreten:

- > Information und Beratung
- > Technische Beratung und Entwicklungsarbeiten
- > Auslieferungslager
- > Repräsentation bei Messen und Ausstellungen
- > Durchführung und Kontrolle von Sonderaktionen
- > Regalpflege

Germany is an attractive exporting country for foreign companies with strong purchasing power. However, it is also a country with difficult markets and in order to overcome the barriers they are confronted with when entering the market, foreign companies, particularly those that are not familiar with the parameters of the German market or are not very well-acquainted with them, require competent distribution partners. Cooperating with a commercial agent is a promising alternative.

More than 40 percent of German commercial agents already work with at least one foreign company. Commercial agents are independent companies that are active in the business-to-business sector. That is to say they broker goods between companies at all levels of business, between industry and trade and between industry and companies in the supplier industry. They exist in almost all sectors.

A significant advantage for the represented companies is the concept of sales-related commissions. This means that there are no fixed distribution and marketing costs and commissions are only paid in the event of sales. The commercial agents fulfil a wide variety of functions. Besides their core responsibility of brokering goods, they also provide a wide range of services in connection with distribution:

- > Information and consulting services
- > Technical consulting services and development work
- > Distribution warehouses
- > Representation at trade fairs and exhibitions
- > Implementation and monitoring of special campaigns
- > Shelf management

- > Logistikleistungen
- > Reklamationsbearbeitung

Gerade für ausländische Unternehmen, die nicht vor Ort sind, ist das Outsourcing von Vertriebsfunktionen eine wichtige Hilfe. Welche Funktionen oder Unterfunktionen ein Unternehmen an den externen Vertriebspartner ausgliedert, ist von Fall zu Fall verschieden und sollte im Einzelfall vertraglich geregelt werden.

Die Tätigkeit der Handelsvertreter für ausländische Industriebetriebe beginnt meistens damit, dass sie Produkte und Konditionen genau danach prüfen, ob sie auf die Bedürfnisse der Abnehmer ausgerichtet sind. Denn die im Inland tätige Handelsvertretung kennt den Markt in der Regel besser als der ausländische Lieferant. Sie ist in der Lage, den Geschäftspartner kurzfristig und umfassend über Marktverhältnisse, Geschmacksrichtungen, Einfuhrvorschriften, spezielle technische Anforderungen und vor allem über das Marktverhalten der Wettbewerber sachkundig zu informieren.

Dem ausländischen Lieferanten werden die über Jahre hinaus gewachsenen Kundenbeziehungen der Handelsvertretung eröffnet. Diese Kundennähe, der „Marktbesitz“ und eine hohe Verkaufsaktivität der Handelsvertretungen sind wichtige Vorteile. Der gute Kundenkontakt ist ein Aktivposten, der besonders dann genutzt wird, wenn neue Produkte in den Markt einzuführen sind.

Die Kunden profitieren von der Zusammenarbeit mit Handelsvertretern dadurch, dass sie durch das zusammengestellte Sortiment ein Angebot sich ergänzender Erzeugnisse finden und so den Einkauf mit wenigen Geschäftspartnern rationell abwickeln können. Bei Fragen und Problemen haben sie einen schnell erreichbaren, kompetenten Ansprechpartner.

- > Complaint processing

Outsourcing distribution functions can be of essential benefit, particularly for foreign companies. The actual functions or sub-functions that the companies outsource to the external distribution partner vary from case to case and should be stipulated in agreements.

The commercial agents for the foreign industrial companies generally start by analysing whether the products and the conditions are in line with the demands of the consumers. This is a logical approach as the domestic commercial agents are usually more familiar with the markets than the foreign suppliers. The commercial agents are able to provide their business partners with quick and extensive information on market conditions, matters of taste, import regulations, special technical requirements and especially market behaviour of competitors.

The foreign suppliers are able to benefit from the long-standing customer relationships of the commercial agents. The proximity to the customer, the knowledge of the market and extensive distribution activities of the commercial agents are essential advantages. The excellent contacts with the customers are an essential asset that can be used, particularly when it comes to introducing new products on the market.

The customers benefit from working in cooperation with the commercial agents as the assembled range of services provides them with an offer of complementary products, which enables them to rationally conclude purchases with few business partners. In the event of any queries or problems, you have a quick, available and competent contact at your disposal.

CHINA-KOMPETENZZENTRUM DÜSSELDORF CHINA COMPETENCE CENTRE DÜSSELDORF

ALLES AUS EINER HAND EVERYTHING FROM ONE SOURCE

Author **BORIS STÄHLY** China Competence Centre Düsseldorf

Düsseldorf wirbt um chinesische Investoren. Ein Kompetenzzentrum berät Unternehmen aus China und hilft ihnen bei der Integration in die Geschäftsnetzwerke und bei Investitionsprojekten. Doch auch deutsche Firmen sollen von der Expertise profitieren, schließlich hat Beschaffung und Produktion in China Priorität in den Unternehmenszentralen der Bundesrepublik.

Düsseldorf ist die Landeshauptstadt des bevölkerungsreichsten Bundeslandes der Bundesrepublik Deutschland, Nordrhein-Westfalen. Als eine der größten Städte Deutschlands ist Düsseldorf am Rhein der wichtigste Wirtschaftsstandort der Rhein-Ruhr Region, einem Großraum mit mehr als zehn Millionen Menschen. Diese Nähe zu einem fast unerschöpflichen Kundenpool und die hohe Lebensqualität machen die Stadt attraktiv für Investoren.

Eine Studie zum Investitionsverhalten chinesischer Unternehmen hat Oberbürgermeister Joachim Erwin darin bestärkt, Investoren aus dem Reich der Mitte an den Rhein zu holen. Als Erfolgskriterien für einen guten Chinastandort wurden gute Betreuung und Beratung beim Geschäftsaufbau, Instrumente zur Förderung der Integration in das geschäftliche und gesellschaftliche Leben und nicht zuletzt das authentische chinesische Essen sowie typische Konsumgüter als Faktoren genannt, die für chinesische Investoren bei ihrer Entscheidung für einen Standort sehr wichtig sind.

Hilfe bei den notwendigen behördlichen Genehmigungen ist für chinesische Investoren besonders wichtig. „Behörden-Scouting“ ist deshalb ein Anliegen des China-Kompetenzzentrums Düsseldorf, das bei der städtischen Wirtschaftsförderung als one-stop-agency agiert. Gute und enge Verbindungen zur Ausländerbehörde, schnelle Wege bei der Suche nach den richtigen Ansprechpartnern für Genehmigungen und nicht zuletzt die Möglichkeit, Anliegen

Düsseldorf is trying to attract Chinese investors. A competence centre offers consulting services to companies from China and helps them with integration into business networks and with investment projects. But German companies are to benefit from that know-how as well. After all, purchasing and production in China is a high priority in company headquarters in the Federal Republic.

Düsseldorf is the capital of North Rhine–Westphalia, the most populous state in the Federal Republic of Germany. As one of Germany's largest cities, Düsseldorf on the river Rhine is the most important economic location of the Rhine-Ruhr–Region, a conglomeration of more than ten million inhabitants. This proximity to an almost inexhaustible pool of customers and the high quality of life make the city an attractive proposition for investors.

A study on the investment behaviour of Chinese companies has further encouraged the Lord Mayor of Düsseldorf Joachim Erwin to try to attract investors from China to the Rhine. Among the criteria for success listed for a good China location, good support and consulting services in establishing a business, instruments to promote integration into economic and social life and last but not least the availability of authentic Chinese food as well as typical consumer goods were identified as factors considered very important by Chinese investors when deciding on a location.

Support with the necessary official approvals / permits is particularly important for Chinese investors. “Public agency scouting“ therefore is one concern of the China Competence Centre Düsseldorf which acts as a one-stop agency within the municipal Business Development Office. Good and close contacts with the Aliens Department, direct access to the responsible agencies for approvals and not least the possibility to express their wishes in

in der Muttersprache formulieren zu können – dies alles macht die Arbeit des Teams für Unternehmen aus China sehr wertvoll. Das China-Kompetenzzentrum, das die Stadt gemeinsam mit der Messe und der Industrie- und Handelskammer (IHK) Düsseldorf betreibt, hat chinesische und deutsche Mitarbeiter, die Teil eines hervorragenden Kompetenznetzwerks sind. Eine kompetente Beratung, Hilfe bei der Integration in die Geschäftsnetzwerke und bei Investitionsprojekten — das sind die Dienstleistungen, die das Kompetenzzentrum individuell und konkret anbietet.

Die Ergebnisse dieser Arbeit können sich sehen lassen: Zwei China-Zentren haben sich in Düsseldorf niedergelassen, zahlreiche chinesische Unternehmen haben hier ihre Büros eröffnet, so dass mittlerweile mehr als 150 Firmen aus China im Gewerbemelderegister stehen.

„Wir bauen darauf, chinesischen Partnern und Investoren qualifizierende Angebote zu machen, die ihnen dabei helfen, erfolgreich Geschäfte zu machen“, skizziert Oberbürgermeister Erwin den Grundgedanken, der dem Konzept des China-Kompetenzzentrums Düsseldorf zugrunde liegt. Das bedeutet konkret: Auf den internationalen Leitmesse am Standort Düsseldorf finden die Chinesen Kontakte zu den wichtigsten Branchenvertretern und zur internationalen Geschäftswelt. Investoren finden ein international erprobtes Umfeld, das mit einer hervorragenden Infrastruktur sowie einem differenzierten Netzwerk von Beratern, Marketingfachleuten und anderen Dienstleistern überzeugt.

China ist einer der führenden Wirtschaftspartner geworden – und die Möglichkeiten, gerade für den deutschen und europäischen Mittelstand – sind noch nicht erschöpft. Beschaffung und Produktion in China beschäftigt fast alle Branchen in Deutschland. Viele Firmen möchten durch die Ausnutzung der Produktionskostenvorteile in China ihre Wettbewerbsfähigkeit auf den heimischen Märkten stärken. Die „China Trade Events“ – „CHINA SOURCING“ und „Canton TradEx Europe“ – zeigen: Chinas Unternehmen sind sehr leistungsfähig geworden. Hochwertige und technisch anspruchsvolle Produkte kommen heute aus China. Und für die chinesischen Aussteller sind die Messen optimal geeignet, um in den deutschen und europäischen Markt einzutreten. Düsseldorf unterstützt beide Seiten, sowohl die deutschen als auch chinesischen Unternehmen, um miteinander ins Gespräch zu kommen.

their native language – all this makes the team's work very valuable for companies from China. The China Competence Centre, which is run by the City of Düsseldorf in co-operation with the exhibition centre and the Düsseldorf Chamber of Industry and Commerce (IHK), has both Chinese and German staff who are part of an outstanding network of competence. Competent advice, help with integration into business networks and with investment projects – these are the individual and concrete services offered by this Competence Centre.

The results of this effort are impressive: two China Centres have settled in Düsseldorf, a large number of Chinese companies have opened offices in the city, with the number of companies from China on the Register of Trades now running to more than 150.

“We trust in extending qualified offers to Chinese partners and investors which will help them to do business successfully“, is how Mayor Erwin outlines the basic idea underlying the concept of the China Competence Centre. In concrete terms, that means: during the leading world fairs held in Düsseldorf, the Chinese are able to make contact with the most important representatives from their industry and with international business. Investors find an environment with a wealth of international experience, attractive due to its excellent infrastructure as well as its sophisticated network of consultants, marketing experts and other service providers.

China has developed into one of the leading business partners – and the possibilities particularly for German and European SMEs are by no means exhausted. Procurement and production in China is an issue for almost all industries in Germany. Many companies are interested in strengthening their competitive position at home by making use of the production cost advantage in China. The “China Trade Events” – “CHINA SOURCING” and “Canton TradEx Europe” – demonstrate: China's companies have become top performers. Today, China supplies products of high quality and sophisticated technology. And for Chinese exhibitors, trade fairs provide an optimal opening for entering the German and European markets. Düsseldorf helps both sides, German as well as Chinese companies to make contact.

WIR SPRECHEN AUCH CHINESISCH!

WE ALSO SPEAK CHINESE!

Author **SVEN GRANZOW** Cosco Logistics

Der Anruf kam morgens um 9 Uhr: „Können Sie uns helfen?“, fragte der Geschäftsführer eines mittelständischen Unternehmens aus dem Fränkischen. „Wir haben im Hinterland von Xiamen einen Granitveredler gefunden. Super Qualität, guter Preis, aber die Firma hat noch nie exportiert. Englisch spricht dort niemand. Wir wollen die Ware kaufen und importieren, aber wie machen wir das?“

Diese Anfrage ist eine von vielen. Jährliche Wachstumsraten von acht bis neun Prozent, günstige Einkaufsmöglichkeiten – Jeder will an diesem Wachstumsmarkt partizipieren. Sourcing in China ist aber nur eine Seite der Medaille. Ähnlich wie im eBusiness benötigt der Einkäufer Logistikdienstleister, die die Ware abholen, verpacken und mit den Zollvorschriften vertraut sind. Das darf sich nicht nur auf die Umgebung von Shanghai oder Hongkong beschränken, sondern muss auch im Hinterland um Orte wie Dalian, Guangzhou, Qingdao oder entlang des Jangtse-Flusses funktionieren.

Stückgut-Netzwerke nach europäischem Vorbild gibt es in China nicht. Es gibt jedoch bereits aus dem Reedereigeschäft flächendeckende Firmennetzwerke, die nunmehr auch Speditionsdienstleistungen anbieten. Das Geschäft ist hier die Abwicklung von Stückgut-Sendungen, Messe-Dienstleistungen, Projekten, das Angebot von Warehousing sowie Hilfe bei der Abwicklung von Import- und Exportgeschäften. Es sind zunehmend mittelständische Unternehmen, die ihre Geschäftsaktivitäten in China gerade starten und die einen hohen Beratungsbedarf haben. Dies erfordert auf beiden Seiten, in China und Europa, sehr fachkundige Mitarbeiter, die sowohl mit den Gegebenheiten vor Ort als auch mit den Vorschriften zum Beispiel bei der Verzollung bestens vertraut sind. Dabei haben sich die langjährigen Vor-Ort-Kontakte zwischen chinesischen Agenten und chinesischen Kunden bewährt. Der hohe Beratungslevel wird von europäischen Unternehmen sehr gut angenommen. Verständlich, denn diese wollen ihre Ressourcen auf ihr Kerngeschäft konzentrieren und das

The phone call came at 9 a.m. “Can you help us?” asked the Managing Director of an SME from Franconia. “We found a granite fabricator somewhere in the country near Xiamen. Top quality, top price, but the company has never done any exporting. They don’t have anybody speaking English there. We would like to buy and import the merchandise, but how do we go about it?”

This enquiry is one of many similar ones. China is en vogue at the moment. Annual growth rates of eight to nine percent, good purchasing opportunities – everybody wants to participate in this growth market. But sourcing in China is only one side of the coin. As in eBusiness, the purchaser needs logistics providers who collect and package the merchandise and have sound knowledge of customs regulations. And this knowledge must not just cover the Shanghai and Hong Kong area but must also work in the remoter areas around places like Dalian, Guangzhou, Qingdao or along the Yangtze River.

European-style networks for part-load traffic are unknown in China. Many European logistics providers are currently investing large sums to build up network structures in China. However, networks covering all of China already exist that were originally built up by shipping companies and now also offer freight forwarding services by road. They do not specialise in booking full loads, but in handling part loads, providing trade fair services, project work, offering warehousing as well as support in handling import and export business. Medium-sized companies are increasingly embarking on doing business with China and have a great need of consulting services. This requires highly expert staff on both sides, in China just as much as in Europe, knowing both the local conditions in China and customs regulations, for instance. In this context, contacts on site built up over many years between Chinese agents and Chinese customers have proved extremely valuable. European companies make extensive use of the comprehensive consulting services. This is understandable, as these companies want to concentrate

Speditionen- und Logistikgeschäft bei Experten belassen. Raten spielen hier eine eher untergeordnete Rolle. Die reibungslose Abwicklung und ein guter Service sind von größerer Bedeutung.

Cosco Logistics (Europe) GmbH mit Sitz in Hamburg baut seine China-Aktivitäten aber auch seine Europa-Aktivitäten kontinuierlich aus. Ist das Vertrauen mit Chinesen erst einmal aufgebaut, entwickeln sich Geschäfte im Eiltempo, nicht nur deutschlandweit, sondern in ganz Europa. Ziel ist es, den Kunden ein komplettes Dienstleistungsangebot im Logistikbereich zu bieten. Hierzu gehören alle Arten von speditionellen Leistungen und auch Seefracht-Angebote außerhalb von COSCO.

Übrigens:dem mittelständischen Granit-Importeur wurde selbstverständlich geholfen.

their resources on their core business and leave experts to handle the transportation and logistics side. One interesting point in this context is that rates have been found to be of rather secondary importance. Smooth handling and good service are of much greater significance.

Cosco Logistics (Europe) GmbH with its headquarters in Hamburg is continually expanding both its Chinese and its European business. Once trust has been built with the Chinese partners, business takes off at a great pace, not just throughout Germany but all over Europe. Our aim is to provide customers with a complete range of logistic services. This includes all kinds of transportation services as well as sea freight services beyond COSCO.

By the way: of course we were able to help that granite importing SME.

Free China Sourcing Quality Control & Supplier Audit

Your best partner & complete purchasing solution from China.

The goal of WithinChina:

The company was established to help overseas customers to

- Approach China supplying market in the easiest way, getting right products from most reliable China suppliers at the cheapest costs.
- Facilitate their business operations / commercial activities in China.
- Protect their interest in China.

The industries WithinChina stands:

- Spare parts for automotive, shipbuilding and medical industries.
- Mechanical components and custom engineered parts made from metal and plastic.
- Hardware: including fasteners, fixings, rigging hardware, tools, chains, bearings, wireropes, housewares, DIY and sanitary hardware.

The advantage of WithinChina:

- Wide contacts with China suppliers and over 5,000 producers now available from our supplier database according to your inquiry.
- Professional service and smooth communication in both English and German.
- Experienced engineers, who are specialized in industries of stamping, forging, machining, turning, cold/hot forming, casting, extruding and plastic injection. and are very familiar to prevailing quality systems like ISO9001, ISO14000, QS9000 and TS16949 etc.
- Our own Test Laboratory: perform the testing on raw material, hardness, tensile strength, torque, dimension, surface coating.
- Extensive network of strategic locations: Shanghai, Nanjing, Nantong, Ningbo, Hangzhou, Tianjin, Qingdao, and Canton.

The service WithinChina offers:

- FREE Sourcing for China products and suppliers: upon receipt of customer's inquiry, WithinChina will select the most suitable suppliers from our great database and pass all their information directly to customer, or WithinChina will transfer the inquiry to the right suppliers who will directly contact or quote the customer, and meanwhile with the permission from the customer, WithinChina will publish the whole inquiry on our website so that all the potential suppliers could see it and make quotes directly.
- Intensive Audit on Suppliers at USD600.00/case.
- Quality control: During production inspection, Inspection before shipment, Container load supervising, Laboratory testing at USD250.00/man/day.

EUROPEAN BUYERS PLATFORM FOR CHINESE PRODUCTS

Nach der erfolgreichen Premiere im vergangenen Jahr freuen wir uns, erneut rund 170 Aussteller aus verschiedenen Regionen Chinas auf der CHINA SOURCING 2006 zu begrüßen, darunter viele namhafte chinesische Unternehmen. Die Aussteller der CHINA SOURCING sind allesamt zuverlässige Hersteller. Sie wurden von CCCME nach strengen Kriterien ausgewählt, auch einige im In- und Ausland bereits bekannte Markenprodukte sind vertreten. Die Messe CHINA SOURCING dient chinesischen Herstellern als optimale Plattform für den Eintritt in den europäischen Markt und den internationalen Einkäufern als Schaufenster der Vielfalt und Qualität chinesischer Produkte. Insgesamt zeigen die Aussteller der CHINA SOURCING rund 12.000 Produkte. Die Messe richtet sich speziell an Einkäufer, Importeure und Händler, die bereits chinesische Produkte in ihren Sortimenten führen oder aber erstmalig über den Einstieg in den China Handel nachdenken.

After the successful first edition in 2005, we are looking forward to welcoming again approx. 170 exhibitors from different parts of China at CHINA SOURCING 2006, including many reputable Chinese companies. The exhibitors of CHINA SOURCING are all reliable manufacturers. They were strictly selected by CCCME and will also bring some brand name products to the show, which are already well-known in China and abroad. The CHINA SOURCING is a perfect platform for Chinese manufacturers to enter the European market, and an open shop window for the international buyers to have better understanding of and show the multiplicity and variety of Chinese products. All in all the Chinese exhibitors will bring approx. 12,000 types of exhibits to the show. The show is dedicated to buyers, importers and traders, wholesale and retail, who either already have included Chinese products in their range of products or think about engaging China trading in the future.

BATHROOM PRODUCTS, KITCHENWARE AND CERAMICS FROM CHINA

Auf der Canton TradEx Europe erhalten europäische Einkäufer und Händler direkten Zugang zu Badezimmer-, Küchen- sowie Keramikprodukten und Baumaterial aus Guangdong. Bei Küchenprodukten und Baumaterial liegt die Provinz Guangdong sowohl bei der Produktion als auch im Export landesweit an der Spitze.

Die bekannte China Exportmesse „Canton Fair“, die jedes Mal Zehntausende europäischer Einkäufer anlockt, hat den Bekanntheitsgrad der Provinz enorm gesteigert. Um auch die Bekanntheit der Unternehmen und Produkte aus Guangdong weiter zu steigern, etabliert die Außenwirtschaftsabteilung der Provinz Guangdong mit der Canton TradEx Europe „eine Kantonmesse vor Ihrer Haustüre“. Rund 130 Aussteller präsentieren Produkte von hoher Qualität, preisgünstig und kreativ im Design, die im In- und Ausland einen guten Ruf genießen. Darunter sind sowohl große Markenhersteller als auch starke mittlere und kleine Hersteller und Zulieferer.

At “Canton TradEx Europe” European buyers and traders have direct access to bathroom products, kitchenware, ceramics and building material from Guangdong, one of the most vigorous and developed regions in China. “Canton Fair”, held in Guangdong province twice a year, attracts tens of thousands of international buyers every time. The intention of the Department of Foreign Trade and Economic Co-operation of Guangdong Province is to establish Canton TradEx Europe as a “Canton Fair at your doorsteps”.

Around 130 exhibitors will showcase their best products at Canton TradEx Europe. Among them are both brand name large enterprises and vigorous medium and small sized manufacturers. Their products are all excellent in quality, reasonable in price, creative in design and enjoying good reputation domestically and globally.

OFFIZIELLE KOOPERATIONSBÖRSE FÜR EUROPÄISCH- CHINESISCHE KONTAKTE IN DER AUTOMOBILINDUSTRIE THE OFFICIAL MATCH-MAKING EVENT FOR THE EUROPEAN AND CHINESE IN THE AUTOMOTIVE PARTS SECTOR

CHINA AUTOPARTS 2006 ist ein offizielles „Business-Match-Making-Event“ für europäische und chinesische Unternehmen aus der Automobilindustrie, initiiert durch das chinesische Handelsministerium und organisiert durch CCCME, Chamber of Commerce for Import and Export of Machinery and Electronic Products.

Die gezeigten Produktbereiche umfassen unter anderem Motor-, Karosserie- und Fahrgestellteile sowie Autozubehör, Autoelektronik und Aufbauten. Finden Sie in gut vorbereiteten One-to-One-Gesprächen zukünftige Kooperationspartner im Bereich Ein- und Verkauf, Outsourcing sowie Technik und Handel: Die offizielle Kooperationsbörse CHINA AUTOPARTS 2006 bietet direkten Kontakt zu rund 50 ausgewählten chinesischen Unternehmen aus dem Automobilbereich, darunter namhafte Automobil-Hersteller wie Dongfeng and FAW sowie bekannte Zulieferer wie Xiangfan Xinghuo Auto Parts Manufacturing Co., Ltd. und Weifang Heng'an Radiator Group Co., Ltd.

CHINA AUTOPARTS 2006 is a platform to enhance business-oriented co-operation between European and Chinese enterprises from the automotive parts and components industry, sponsored by the Ministry of Commerce of the P. R. China and organized by China Chamber of Commerce for Import and Export of Machinery and Electronic Products (CCCME).

The scope of products includes but is not limited to: auto engine, body parts, chassis parts, automotive accessories, electrical parts and auto manufacturing materials. In well-prepared one-to-one business meetings, you can easily find co-operation partners in the field of selling, buying, outsourcing, technical or sales cooperation and contact approx. 50 pre-selected Chinese companies from the automotive parts sector, amongst which are such well-known manufacturers as Dongfeng and FAW as well as big suppliers like Xiangfan Xinghuo Auto Parts Manufacturing Co., Ltd. and Weifang Heng'an Radiator Group Co., Ltd.

Auf einen Blick **At a Glance**

- > Vortermینیerte One-to-One-Gespräche mit Ihren Wunsch-Ansprechpartnern
- > Chinesische Kompetenz aus allen Bereichen der Autoindustrie vor Ort in Düsseldorf
- > Networking und Kooperationsbörse zwischen europäischen und chinesischen Automobilherstellern und -zulieferern
- > Erweitertes Know-how durch begleitende Seminare über die chinesische Automobilindustrie
- > Pre-scheduled One-to-One-Business Meetings with your favourite contact persons
- > Chinese Companies' Presence in Düsseldorf, Germany – you do not have to travel far!
- > Networking and co-operation partners in the fields of selling, buying, outsourcing, technical or sales co-operation between European and Chinese automotive parts makers and suppliers
- > Enhanced Know-how - a series of seminars regarding Chinese automotive market information

Asien ändert alles

Die Standorte Asiens verändern die Welt. Und vor allem die Industrieunternehmen hier. **sourcing_asia** bilanziert diesen Wandel. Das Magazin liefert 6 mal im Jahr Informationen und Praxiswissen zu den Themen Beschaffung und Fertigung in Asien.

sourcing_asia erscheint in deutsch und englisch und spricht so auch Ihr internationales Team im Einkauf an.

Bestellen Sie **sourcing_asia** jetzt im Probeabonnement und Sie erhalten zwei Ausgaben für nur 19,90 Euro.

Integrated processing enterpri-
ses. Our products divide into
three major categories: Car
parts, electronic components,
bathroom accessories.

The German-Chinese Busi-
ness Association promotes
business activities between
German and Chinese compa-
nies.

Our company offers you high
quality articles with our brand
FASAKA. Being a specialised
exporter as well as an ISO
9001 certified manufacturer,
we are mainly engaging in the
designing, manufacturing and
supplying of various kinds of
stainless steel products and
plastic homewares together with
some other household pro-
ducts. Our smart team is good
at working for tight budget and
rush leadtime as well as OEM
projects.

For further information please
do not hesitate to contact us
directly.

Our company is specialised in dealing with silver plated, nickel plated, chrom plated & pewter finished metal products, like baskets, vases, jewel boxes, mirrors, candelabra, trays, cups sets, photo frames, gravy boat, poly bathroom sets, etc. Owing to her variety of designs & skillfull technique.	Our company is the largest manufacturer specialised in making iron trays. We have the advanced optional hardware for complex design, pattern & tooling management. Operating with CNC engraving & milling machine, we can complete a full set of tooling for tray in about 20 days. We also have our own designed automatic production lines together with the relative electroplating & assembling lines.	We major in motor driving products, such as meat grinder, chopper, mixer and many other things.	As a Sino-German joint venture in China and an outstanding combination of German technology & management and China making facility, ec camitec was established to provide European customers with quality products and local service, specialising in the manufacturing of custom engineered products and mechanical components according to ISO 9000 and TS 16949.

of leading ceramic factories in
Guangdong with cooperators
in Europe and other countries.
We shall be glad to enter into
business relations with you.

Guangdong Sitong Group Co.,
Ltd. is a leading company in
manufacturing and selling
sanitary wares. Our products
include toilet, bidet, basin with
pedestal, counter top basin,
art basin and basin with cabi-
net. Our annual sales revenue
is USD 25 million.

We highly emphasise the im-
portance of product designing,
because we know that the key
of competition is creativity.
We possess a design team
to provide our customers with
excellent products and best
services.

For further information please
do not hesitate to contact us
directly.

KWE is an international air- and
oceanfreight forwarder as well
as a total logistics provider
(including customs brokerage,
providing temporary storage,
processing products during
distribution, and providing distri-
bution and inventory services).
In China, KWE has the largest
network of any foreign-owned
freight forwarder and our objecti-
ve is to expand to 100 locations
and about 2,100 employees in
China by the end of 2006.

1001-2000

Liaoning 518 Company, Chi-
nese-foreign joint venture, is
one of the key manufacturers
of fittings and commercial
die-forgings for automobiles,
internal combustion engines
and engineering machinery.
The company makes over
150 kinds of forged steel
crankshafts and 300 kinds of
commercial die-forgings. They
cover an area of engineering
machinery, automobile parts,
engine parts etc.

0-50

Our company is located in
Chongqing, the fourth biggest
city in China. We are key ex-
porter of China products. We
mainly deal with Kitchen appli-
ances, hardwares, electronic
products and etc.

BESCHREIBUNG/ DESCRIPTION	Ningbo Fuda Electric Appliance Co., Ltd. is one of most famous factories in vacuum cleaner in China. Our main products, Fuda brand vacuum cleaners, vacuum cleaner motors and various kinds of small home electrical appliances, sell well in over twenty different countries. Our products are certified by CCEE, GS, EMC, CE, IRAM and UL. If you have any requirement, please contact us.	Founded in July 1997 as a Sino-foreign joint venture, specialising in the manufacture of vacuum cleaners and their accessories, such as electric motors and plastic fittings. The company will continue to focus its efforts on the quality of its products and service as always, expedite the technical renovation, regard the customer's anxiety as its own and meet the customer's need. Our development relies on your success.	An industrial group supported by four hi-tech pillar industries concerning concrete pumps, special rubber hoses, superior lubricating greases, precision-casting abrasion-resistant tempering manganese steel pump lines etc. for construction machinery. As China's largest concrete pump parts' production center, the corporation is headquartered in Ninghai Economic Development Zone, and has over twenty branches and offices across the country.

BESCHREIBUNG/ DESCRIPTION	Taizhou Dajiang Ind.Co., Ltd. is a professional manufacturer of air nailers, air staplers, air compressor and generator. We have got TUV/CE/GS, ISO 9001 and UL certificate. We have more than 20 automatic assembly lines and have about 800 employees. The monthly production capacity has reached 250,000 pcs. DAJ has established very friendly business relationships with many countries in America, Europe, Australia, Middle East due to its high-quality products and good service.	Our company specialises in manufacturing different kinds of water pumps. Happy pump products involve vortex pumps, centrifugal pumps, selfpriming pumps, submersible pumps, shield pumps, stainless steel deep well pumps Series etc., which includes more than 200 specifications. Happy pump has passed CE, CCC product safety certifications and its products have been assessed as high technical products by Association Technologie Nouvelle de France, these gain a permit for the products to enter European market.	Taizhou Luxi Tool Co., Ltd. (formerly wenling wufu air tools factory) is a modern business which is specialised in producing spray guns and pneumatic tools. We have been in this line for more than 20 years. Luxi has developed a comprehensive range of products to meet clients' various requirements. Our products are exported to many countries in the world. In addition, the approval of UL, GS, CE and ISO 9001 quality management system further ensure the stability and consistence of our products.
